

Upgrade your original Pro Shade shield with a longer tint lens for more coverage or dress it up with one of the three mirror color options. If you don't have a Pro Shade System yet, you can build your own by combining a lens ready shield and your choice of shade.

Original Sunvisor Length

PRO SHADE SYSTEM

LONG *Mirror and Smoke* SUNVISOR

Everyone knows the benefit of the lens when down, but in the up position internal shades just disappear while the Arai Pro Shade keeps working, reducing overhead glare both day and night. Plus, riding with a clear view when overcast or in the shadows with the ability to instantly block sudden bursts of glare when the sun pops out from behind the clouds, trees or around a canyon bend with the simple dip of the head - without ever having to take your hands off the bars.
