

GLOBE TROTTER

Tetsuya Harada, one of Arai's most popular GP riders with a string of extremely popular replicas, toured the world chasing the 250 & 500cc world championships, winning the 250cc championship in 1993.

This design pays tribute to that pursuit, displaying a subtle global map design on either side of two simple black pennants running down the center and over the top. The details within the global maps can only be appreciated in person, so if you like attention to detail in a simple two tone combination, it's worth a closer first hand look.

Key Corsair-V Benefits:

- Massive DF-10 upper ventilation ducts for incredible airflow.
- Adjustable air-wing, accommodates almost any riding speed, style or position.
- FCS cheek pad design offers stability for spirited riding, and incredible comfort for all-day long distance riding.
- Peel-Away cheek and temple pads allow for custom micro-fitting to your head shape.
- Dry-Cool(r) interior material helps draw heat and sweat away from you and into the airflow.

CORSAIR-V HARADA TOUR

Rounder, Smoother & Stronger Shell
**R75
SHAPE**
