SIGNET-Q

US FLAG

➤➤➤ **SIGNET-Q US FLAG BRACK FROST**
 or many years Arai has had great success with a design series based on the flag design and colors of various countries from around the world. Over the years many have come and gone, while a few remain due to their popularity, most notably Italy and the UK. However, the US has never been among them, until now. New for 2013 a stylized two-tone design of the US Flag has been added to this "Flag" series. For the US Flag design, the Signet-Q, created specifically for the North American market with a long oval (L/O) interior shape, was chosen as the canvas. The design intentionally went dark, choosing not to blast bold swatches of Red, White & Blue, but instead went with a simple two tone Silver on Black with a gold accent stripe and Arai's signature "frost" matte finish. A small, full color, Red/White/Blue stars & stripes rides proudly above the front Arai logo. Completing the design is an outline of all 50 States, including Alaska and Hawaii, on the back. To say this design is striking is an understatement. On a personal note, I have to say that I was very disappointed to learn that the side logos were left on the US Flag design. As I have said before, there are designs where the side logos are not needed and in fact detract from the impact of the design, this is one of them. I understand that it is too late to change this design, but want to be very clear that the sale volume of this design will not be as high as they could be as a result of the side logos.

➤➤➤ **The brand new SIGNET-Q Arai takes comfort to new lengths**

The fit you've been missing
 New FCS cheekpad system
 5mm peel-away side-temple pad
 PILLOCK MAX VISION, faceshield
 Size: XS, S, M, L, XL, XXL, XXXL
