SIGNET-Q ABRAHAM

>>> SIGNET-Q ABRAHAM

A new and very aggressive design, the new Abraham graphic offers a dramatic asymmetrical design. The cartoon time bomb on the right, showing 17 seconds on the clock (Abraham's competition number), and a bright burst on the left side give this design a very unique position within the Arai stable. Certainly not your typical Arai style, but we continue to strive to offer different designs for different riders' tastes and we believe this design offers something to a new group of riders looking at Arai but want more flash. The divide between the two sides if the helmet incorporates a multitude of the number 17, again playing tribute to Abraham's competition number, and adds a stylistic background field. Being placed on the Signet-Q model indicates our recognition of the market trend with regard to head shape, leaning more and more to the Long/Oval interior head shape, as well as the consumer demand for racer graphics on models other than the Corsair-V.
