

# STREAKING PAST

New graphics continue to arrive in the US market, adding to the selection of new styles for 2013, and July will not disappoint.

In keeping with efforts to offer more design styles to reach and satisfy more Arai riders, this striking new design called "STREAK" offers subdued tones and simple lines in a frosted "matte" finish that offer more than just a solid color, providing tasteful contrast without going over the top. The multitude of lateral stripes give the illusion of speed, making anyone appear faster than they really are.

Considered by many to be the ultimate street helmet, the popular RX-Q offers an excellent balance of comfort, quiet and performance. Developed from our flagship Corsair-V model, the RX-Q is specifically tuned to work better on the street, delivering outstanding all day comfort for everyday street riders.

## RX-Q STREAK

Rounder, Smoother & Stronger Shell
