

Crutchlow Gets a New Home!

A new Cal Crutchlow replica is not unusual to the Arai lineup, in fact, the 2015 version retains many of the great characteristics of previous versions- bold colors and crisp graphics are a hallmark of previous Crutchlow replica designs. One of the biggest differences of the new version is that it is on the Vector-2 model, instead of the usual Corsair-V used for most race replicas. While it is a more basic helmet, the Vector-2 is anything but entry level- it has a unique fit that is different from any other helmet in the Arai lineup. The Vector-2 is a great platform that fits many riders well right out of the box. Riders who have worn Arai for many years will instantly be comfortable with the plush, brushed nylon cheekpad and headliner material. Well established as a factory Moto GP rider, Cal's replicas will be not only highly desirable when new, but will become collectable as Cal continues through his racing career. See the new Cal Crutchlow replica, along with all the other new models, at your local Arai dealer.

VECTOR-2

CRUTCHLOW
