

# BRIGHT FLOWERS

The new Vector-2 has had several new designs since its introduction, but none offer the subtle brilliance and bold colors of the new Blossom Frost.

The white frost finish, a recent and popular Arai design trend, allows the bright colors of the new Blossom to shine through - just without the glare.

For those who like bright colors but without typical linear lines or cartoon-like characters found on most of today's colorful designs, the Blossom offers a unique alternative.

As always, no photograph can do justice to the detail and quality of an Arai finish, so you owe it to yourself to see the new Blossom Frost in person, especially if you've never seen the new white frost finish.

## VECTOR-2 BLOSSOM

Rounder, Smoother & Stronger Shell  
**R75**  
SHAPE
