

VX-PRO3 CURRENT

>> VX-PRO3 Current

Looking to expand our ever changing design feel, the new Current design offers a combination of traditional bright linear graphics on a black base, with a retro black & white underlying current design breaking through. We recognize that the off road market consist of a wide mix of riders with an even wider scope of design interests. The new Current design reflects Arai's willingness to try something new in an effort to appeal to riders who previous did not gravitate towards Arai designs in the past. The new Current has white edge trim as well as Arai's new gunmetal grey interior color.

>> The VX-PRO3 More innovation, more protection, more ventilation, more of everything you expect from an ARAI
