

LIKE CLOCK- WORK

Detailed, precision clock-like inner workings hide beneath the surface of this new design.

The Chronus graphic look sharp from a distance, but offers surprising detail up close, for those who appreciate attention to fine detail.

The Chronus is available in four color ways, giving everyone a chance to match something on their bike or gear.

Key features of the Defiant:

- Aggressive upper intake and exhaust vents, increase airflow while keeping noise to a minimum.
- Aggressive chin vent flows lots of air and is easily removable/replaceable.
- IR Front Trim Spoiler adds downforce to reduce lifting and buffeting when riding naked bikes.
- FCS cheek pads, provide excellent stability as well as incredible comfort for long rides.
- Peel away cheek and temple pad layers for micro fitting, allowing you to custom fit the helmet closer to your head shape.
