

Return of a Legend

The iconic Jolly Roger returns, boasting a little more color and race inspired style!

Considering how popular the original Jolly Roger was, actually outselling solid black at the peak of its popularity, the reaction to the new Jolly Roger-2 design suggests it will be every bit as popular - so if you like it, don't hesitate - as we expect demand to outpace supply for at least the first few months after it's release.

Being that the design speaks to the "Defiant nature" in all of us, we opted to offer this updated graphic on the Defiant model.

Key features of the Defiant:

- Aggressive upper intake and exhaust vents, increase airflow while keeping noise to a minimum.
- Aggressive chin vent flows lots of air and is easily removable/replaceable.
- IR Front Trim Spoiler adds downforce to reduce lifting and buffeting when riding naked bikes.
- FCS cheek pads, provide excellent stability as well as incredible comfort for long rides.
- Peel away cheek and temple pad layers for micro fitting, allowing you to custom fit the helmet closer to your head shape.

Defiant Jolly Roger 2

Rounder, Smoother & Stronger Shell
**R75
SHAPE**

Description of Product
