

Classic Style

As the name implies, the new Chopper design is a clean and simple artistic representation of the classic lines of, you guessed it, a Chopper.

A design for the individual not screaming for attention with super bright colors or crazy shapes, the Chopper represents the cruiser inside you with the clean lines and a bold red center stripe.

Black, Red and Silver. Simple. Clean. Unique.

Key features of the Defiant:

- Aggressive upper intake and exhaust vents, increase airflow while keeping noise to a minimum.
- Aggressive chin vent flows lots of air and is easily removable/replaceable.
- IR Front Trim Spoiler adds downforce to reduce lifting and buffeting when riding naked bikes.
- FCS cheek pads, provide excellent stability as well as incredible comfort for long rides.
- Peel away cheek and temple pad layers for micro fitting, allowing you to custom fit the helmet closer to your head shape.

Defiant Chopper

Rounder, Smoother & Stronger Shell
R75
SHAPE
