

Embrace Your Dark Side

Just like fine British tea, the Union Jack flag has been steeped in racing tradition and carries a rich heritage to the countries past. Highly popular on countless helmet designs, the artists at OCD have embraced the re-imagined Union Jack's subtle darkness in the Black Jack embodiment.

Arai's black frost brings a refined body fit to hold the flowing Black Jack flag. Soft silver and grey colours comprise the flag being bolstered above a checkered banner pattern wrapped around the base in true British racing form. The crown of the helmet is properly adorned with gold pinstripes as well as the base to accent the striking design. The true Union Jack sits above the Arai logo, while a silhouette of Great Britain completes the rear of the design.

Celebrate your British heritage or your British motorcycle... or both!

Key features of the Signet-Q:

- FCS cheek pads providing excellent stability at speed, while also offering incredible comfort for all day riding.
- Dry-Cool interior material for improved comfort, drawing heat and moisture away from you and in to the air flow.
- Peel Away cheek and temple pad layers for additional micro fitting, allowing you custom for your unique head shape.
- MAX-V Brow-vent Pin lock shield, offers ability to change inner anti-fog lens tints using the same shield, with an incredible field of view.
