

INTERNATIONAL PRIDE

The RX-Q, considered by many to be the ultimate street helmet, continues to be Arai's most popular current model offering an excellent balance of comfort, quiet and performance Arai. Starting with our Flagship Corsair-V model as a foundation, the RX-Q is specifically tuned to work better on the street, delivering outstanding all day comfort for everyday street riders.

For 2013 the RX-Q will be adorned with the ever popular "UK-FLAG" and "ITALY-FLAG" designs, the latest incarnations of a long standing and extremely popular design series. Classic lines, with a striking deep green base beneath stylized national flags and the countries outline on the back, these helmets will give anyone wearing them a tremendous sense of national pride — even if you're not from there.
