

Something Different

White

When you want simple but not boring, the new 75 Retro design gives you just enough interest with simple lines and a retro style 75 to break up the boredom, finished off with Arai's exclusive "Frost" finish that delivers a unique sheen to the design instead of the typical dull look of a flat or matte coating.

Offered on the RX-Q with Arai's Intermediate Oval (I/O) interior shape, found to be extremely comfortable for many traditional Arai wearers. The new 75 Retro designs, in White Frost or Black Frost, should be reaching Arai dealers just after the New Year.
