VECTOR-2

Read Replica

>> VECTOR-2 Read Replica

A Legend is reborn! One of the most popular historic designs offered in the recent past has been the Read Black design, and in reaction to the growing popularity of white-based graphics, Arai has flipped the colors on the Read and made a white version. This legendary design continues to speak to those who want more than a solid, but less than a busy rainbow. The new Read White gives those customers the visibility of a white-based design in a stylish and understated graphic. Already sailing to the US, the new Read White is expected to land in dealers in early February, so check with your local dealer for an updated ETA.

>> The VECTOR-2 Arai's "basic" helmet is anything but. We call it Less is More, but like everything from Arai, our emphasis is on More.
